

Pharma Research Bulletin (PRB) is an **Open Access** multidisciplinary journal dedicated to pioneering and modern research related to all faces of pharmaceutical sciences, which publishes original research work, review articles, short communications and case study with emphasis on conceptual novelty and scientific quality. Additionally, PRB provides various other services, which makes it more convenient research platform for researchers, which includes:

1. Fast Track Service: It is the unique service provided by PRB to encourage the new intruders in the field of pharmaceutical research for publication of research/review articles. In fast track service, the articles will be accepted for publication (after strict review) within 4 week only after submission by author. If manuscript is accepted under “Fast Track Service” then authors are required to pay a \$100 or INR 2000 (for Indian authors) as processing & handling fee.

2. Certificate: PRB also provides free of cost certificate to the corresponding author after publication of research/review article, for thier significant research contribution in scientific field (To get certificate, corresponding author has to send separate request mail to editorprb@eduspread.com).

3. Best Paper Award: At the end of each year the editorial board will reviewed all published research/review articles and announce the best paper award (on the basis of content and citation of paper) and certificate will be given to winner by editors.
